

SSHRC Grants Mean Increased Purchasing Power for Trio of Specialized Research Collections

The University of Alberta Library has been awarded three grants totalling \$50,000 by the Social Sciences and Humanities Research Council of Canada under the Specialised Research Collections Programme.

The Humanities and Social Sciences Library received the awards on the basis of three applications made by separate sections of the Library. The business collection has been awarded \$30,000 to purchase microfilm backfiles of annual and 10K (more detailed corporate and financial information) reports for companies traded on the American, New York and over-the-counter stock exchanges. This is the only library in Canada to have current subscriptions and extensive backfiles of these reports and of proxy statements for companies traded on the three exchanges. The collection, reputed to be the strongest in Canada, is vital to business and management research and to the Business Faculty's teaching programs.

The Library was awarded \$10,000 to further develop its collection of works on British illustration from

1860 to 1939. This important collection supports teaching and research in graphic design and illustration as well as the inter-disciplinary study of literature and visual arts.

The remaining \$10,000 will be used to answer a growing need to

support the classics collection. Important works in languages other than English or French and backfiles of specialized serials dealing with such subjects as epigraphy, numismatics and ancient art will be purchased. These will support teaching and

research related to the University's archaeological digs in Italy and North Africa. The Library is recognized as one of the best classical libraries in Canada. The new money will help to ensure that this status is maintained. □

Alumni Reunion Gives New Meaning to 'Have a Nice Weekend' Sentiment

Students aren't the only people for whom September is back-to-school month. Reunion Weekend '88, 23 to 25 September at the University of Alberta, will again give alumni a chance to get reacquainted, with classmates and the campus. Formerly called Homecoming, the name change reflects the emphasis now placed on class reunions (a service provided by the Alumni Affairs Office).

Reunion Weekend '88 is chock-full of events to suit everyone's tastes. Those wanting to see how the physical landscape of the University has changed can take part in tours of the campus, its museums, and the Mackenzie

Health Sciences Centre.

Athletically-inclined alumni can register for the tennis or archery tournaments or get a vicarious thrill at the Golden Bear football game. The social highlight takes place on Saturday evening with the reunion dinner and dance at the Westin Hotel.

This year, grads from the classes of '23, '28 and '38 will be honored

at a brunch hosted by President Myer Horowitz and his wife, Barbara, on 25 September.

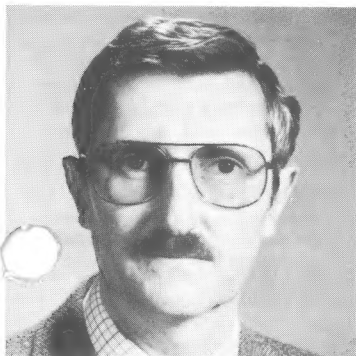

Alumni interested in organizing a reunion with their classmates are asked to contact Alumni Affairs, 432-3224, to make the necessary arrangements. Do act fast because Reunion Weekend '88 is closing in and it takes time to organize an event of this magnitude. □

French Government Honors Dean of Faculté Saint-Jean

Congratulations are due Jean-Antoine Bour, Dean of the Faculté Saint-Jean. He has been made an Officer of the Ordre des Palmes Académiques.

In a letter to Dean Bour, the French Ambassador to Canada, His Excellency Philippe Husson, stated that the award was granted in recognition of Dean Bour's work on behalf of French culture, particularly in Western Canada.

A ceremony in honor of Dean Bour will take place in early autumn. □

Jean-Antoine Bour

Internal Audit Manager Appointed

Fiona Chesney, a chartered accountant with Coopers & Lybrand, will assume the post of Manager of Internal Audit, commencing 1 September. The current position was redesignated from Director to Manager and the incumbent now reports to the Associate Vice-President and Comptroller, Louis Jamernik.

Ms. Chesney joined Coopers & Lybrand in 1983 after graduating from the University of Alberta with a BCom degree. She was

National Accreditation Body Endorses Computing Science's Programs

Following an intensive two-day review by four members of the Canadian Information Processing Society (CIPS), the Department of Computing Science received accreditation for its two undergraduate programs (specialization and honors).

"We received an extremely clean bill of health," says Bob Crawford, Acting Chair of the department.

Accreditation of the programs for the next five years is, of course, of benefit to future students because they know that the facilities and course material meet the standards of CIPS. By the same token, employers in the computing science field know that University of Alberta graduates have received the best education and training possible.

Some of the purposes of the CIPS Accreditation Council are to promote and advance all phases of computer education with the aim

of promoting public welfare through the development of better educated computer professionals and to formulate and maintain high educational standards for Canadian universities offering computer programs. □

Varsity Arena Home Away From Home for Korean Hockey Teams

Two hockey teams from Seoul, South Korea, are attending special sessions of the Golden Bear and Panda Summer Sports Program.

Representing Yonsei University and Kwang Sung High School, the Korean contingent of 50 players, coaches and officials arrived on 22 July and will stay until late August. During this time, both teams will undergo advanced instruction specifically tailored to their skill level and designed on the Golden Bear program.

The Koreans are receiving instruction from Clare Drake (head coach of the Golden Bears), Jack Cummings (former Golden Bear goaltender and former head coach of the Fort Saskatchewan Traders), Bill Moores (assistant coach of the Golden Bears), Dan Peacocke (former captain of the Golden Bears and former head coach of the Red Deer College Kings), and power skating specialist Audrey Bakewell.

This year marks the first time Kwang Sung has attended the Golden Bear Hockey School. The high school, a powerhouse in Korean high school hockey, will return home on 20 August with four weeks' instruction under its belt, or, more appropriately, suspenders.

Yonsei University is making its third appearance at the hockey camp. Having first attended in 1983, the team is arguably one of the best at the university level in

The give and go play: Jack Cummings (left) and Dave Breakwell call a time out to present sweaters to Yonsei's team captain Lee Kyung Chul (second from left) and manager Kil WhooSik.

Korea and has developed a number of players with national team potential. After attending last year's Golden Bear camp, Yonsei exhibited such an improvement in play that Kwang Sung decided to participate this year. Yonsei will receive instruction until 19 August, and then practice an additional week at the Mayfield Twin Arenas.

In previous years, Yonsei had attended camps in Japan. Although this was convenient, the cost of the facilities was high and the instruction was not as advanced as the Koreans desired. Searching for a new training locale and program, Yonsei was attracted to the

University of Alberta, thanks in part to the Golden Bears' visit to Japan in the late 1970s and to Clare Drake's reputation in international hockey circles. The Yonsei Alumni Association then asked John Kim (an Edmonton businessman who holds a Master's degree in Economics from Yonsei) to

approach Coach Drake and, in 1983, Yonsei experienced its first Golden Bear Hockey Camp.

In addition to their day-to-day workouts, the Koreans are scrimmaging against other hockey school participants at Varsity Arena. The doors are open to visitors. □

Selection Committee for Dean: Faculty of Dentistry

The Advisory Selection Committee is continuing its search for a Dean of the Faculty of Dentistry. The appointment will take effect 1 July 1989 or as soon as possible thereafter. Nominations or applications for the position, accompanied in the latter case by a detailed résumé of qualifications and experience, and the names of three referees, should be submitted as soon as possible to: Dr. J. Peter Meekison, Vice-President (Academic), 3-4 University Hall, University of Alberta, Edmonton, Alberta T6G 2J9.

Vice-President (Research) Brings Senior Decision-Makers to Campus

They came. They saw. And they learned.

At the invitation of Bob James, Vice-President (Research), Ross Pottie, Bruce Howe, and representatives of investment companies of Vencap Equities Alberta Ltd. visited the University of Alberta and were introduced to a number of research initiatives.

Mr. Pottie, executive vice-president, National Research Council, was here in May; Mr. Howe, deputy minister, Ministry of State for Science and Technology, visited in June; and the Vencap executives toured various laboratories in July.

The most recent tour saw Brian Scarfe, Associate Vice-President (Research), and Bob Armit, Director of Research Services, give introductory remarks. The visitors then learned of the research of Peter Allen (Medicine/Nuclear Magnetic Resonance), Allan Offenberger (Electrical Engineering), F. Wolfe (Food Science), and Wayne Davis (Alberta Centre for Machine Intelligence and Robotics). There was also a

visit to the Slowpoke Nuclear Reactor and a talk with the Director, Leonard Wiebe.

At a luncheon at University House, the following individuals made presentations: John Bachynsky ("Patents and Intellectual Property"), Jim Dunn ("Management Advisory Institute"), Bruce Miller ("Computing Services Available at the University of Alberta"), Andy Gilliland ("NRC Program for Industry") and Bob Armit ("University Industry Programs").

Vencap's Ron Triffo, president of Stanley Engineering Group Inc., said it was a good idea to expose various business people to the variety of research at the University. "The tour was informative . . . you should be bringing more people out and showing them around . . . you never know what might result."

He said that, in time, there is no doubt that Stanley Engineering will be back to see just where it could get involved with a technology-oriented product emanating from the University. □

These discussants are (left to right): Dr. James; Ken Broadfoot, deputy minister of Alberta Technology, Research and Telecommunications; Dr. Pottie; Andy Gilliland, coordinator, Alberta IRAP, National Research Council; President Horowitz; and Ken Aberle, president, Edmonton Chamber of Commerce.

Bruce Howe (right) chats with Dr. James (centre) and Dr. Scarfe.

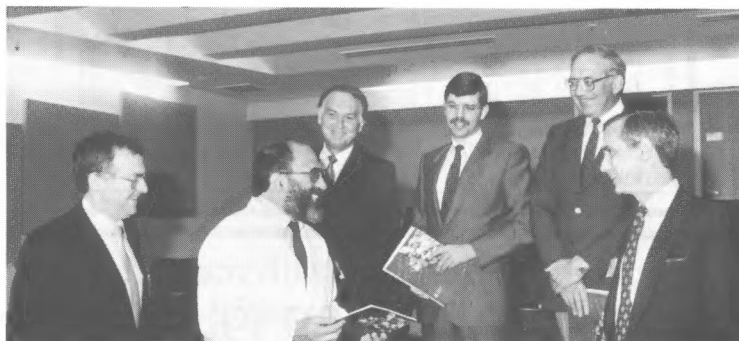

L. Russell James, 1935 - 1988

The staff of University Computing Systems were saddened by the loss of their friend and co-worker, Russ James, who passed away on 24 July 1988.

Russ James joined the Department of Computing Science on 19 May 1964 as a computer programmer in the Systems group and was promoted to senior analyst in 1966. When the Department of Computing Science was split into Computing Science and Computing Services, he stayed with the Computing Services Department. In 1976, he moved to the General Programming Section, where he maintained the role of chief consultant.

Mr. James was the computer guru at the University and was sought by many clients and staff to solve what they considered the unsolvable. To the amazement of his fellow analysts, he read through computer core dumps as easily as he did a daily newspaper. Russ James's specialty, though, was data conversion—if you had a tape with undecipherable data on it, he'd be your man.

Russ James will be missed by his University colleagues and friends. His sense of humor, his dedication and his expertise will remain an inspiration to those who were fortunate enough to know him. □

Mark Poznansky (in lab coat), Associate Dean (Research), Faculty of Medicine, briefs (from left) Denis Condon, vice-president, IDACOM Electronics Ltd.; Ron Triffo, president, Stanley Engineering Group Incorporated; Dave McAlpine, president and chief operating officer, Clarepine Industries Ltd.; Bob Fraser, manager, Specialty Metal Products, Sherritt Gordon Mines Ltd.; and Kenneth Gordon, president, Myrias Research Corporation.

Internal Audit Manager - Continued from page one

responsible for preparing audit budgets, planning and implementing audit approaches with managers for audits of organizations in the private and public sectors, supervising audits, evaluating internal controls for organizations and providing recommendations. Ms. Chesney was also seconded by the firm to join its Melbourne, Australia, branch in 1987 as an audit senior.

In her new position, Ms. Chesney is accountable for developing and managing a comprehensive program of internal auditing, including performing financial, operational,

and EDP (electronic data processing) audits of the entire University. Two internal audit positions report to the manager, senior internal auditor and an EDP auditor, yet to be appointed.

This position is one of eight reporting to the Associate Vice-President and Comptroller. The others are: Chief Accountant; Manager, Special Funds and Research Accounting; Treasurer and Risk Manager; Payroll Manager; Manager, Financial Information Systems; Office Manager; and Administrative Assistant. □

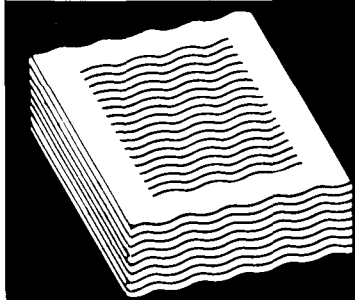

Selection Committee for Dean: Faculty of Pharmacy and Pharmaceutical Sciences

An Advisory Selection Committee has begun its search for a Dean of the Faculty of Pharmacy and Pharmaceutical Sciences. The appointment will take effect 1 July 1989 or as soon as possible thereafter. The present Dean has advised that he will not be a candidate. Suggestions of possible candidates and assessments of the leadership needs of the Faculty are invited.

Nominations or applications for the position, accompanied in the latter case by a detailed résumé of qualifications and experience, and the names of three referees, should be submitted by 1 December 1988 to:

Dr. J. Peter Meekison, Vice-President (Academic), 3-4 University Hall, University of Alberta, Edmonton, Alberta T6G 2J9.

Currents

Pharmaceutical Research Conference

A conference titled "Recent Developments in Pharmaceutical Research and their Implications on the future of the Pharmaceutical Industry" will be held at the Radium Hot Springs Resort, 14 to 18 August.

The conference, organized by SynPhar Laboratories Inc. of Edmonton, is designed to inform senior administrators of developments in selected, rapidly growing areas of pharmaceutical research.

Attendees will include senior representatives of Taiho Pharmaceutical Co. Ltd., Japan; SynPhar Labs; Government of Alberta; Universities of Alberta and Calgary; Cross Cancer Institute; Tom Baker Cancer Centre; and Alberta Heritage Foundation for Medical Research.

Reception to Honor A.T. (Al) Robertson

The Department of Planning and Development will hold a farewell reception in honor of Al Robertson, who will retire on 1 September.

A reception will be held from 3 to 6 p.m. on Thursday, 25 August, at the Faculty Club. Friends and colleagues are cordially invited to attend.

Those wishing to make a donation toward a farewell gift may forward a cheque payable to the "A.T. Robertson Retirement Fund", by 19 August, to Emma Molina (432-4966), Planning and Development, 480 General Services Building.

Shastri Indo-Canadian Executive: Correction

The name of the newly elected Deputy Director of the Shastri Indo-Canadian Institute Committee, S. Malhotra, was inadvertently omitted from the announcement in the 30 June issue of *Folio* of the new executive of the committee. The office of the Dean of Arts wishes to apologize for this mistake in the information that it provided to *Folio*. The executive for 1988-89 is as follows: R. Qureshi (Music), Director; S. Malhotra (Zoology), Deputy Director; B.K. Sinha (Psychiatry and Psychology), S.M. Subbarao (Entomology), E. Waugh (Religious Studies) elected to the Steering Committee. □

International Research Guide Now Available

A comprehensive guide to the operations of the International Development Research Centre (IDRC) is now available for those interested in international development research projects in the Third World.

The bilingual publication, produced by the international division of the Association of Universities and Colleges of Canada (AUCC), is a guide for the Canadian university research community. It gives details of the IDRC (a crown corporation providing funds and expert advice to developing country researchers who conduct research on basic development needs in their own countries) and explains the Canadian research community's role in the Centre's work.

Interested researchers can obtain a free copy of this new publication from AUCC Publications, 151 Slater Street, Ottawa, Ontario, K1P 5N1 (613) 563-1236. □

Positions

The University of Alberta is an equal opportunity employer.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Academic

Manager, Systems Development

Applications are invited for the position of Manager, Systems Development, Administrative Applications Division, University Computing Systems.

Reporting to the Associate Director, Administrative Applications, the Manager, Systems Development, is accountable for the planning, design and development of high quality, innovative, and cost-effective information systems in support of University and departmental administration and management.

Qualifications include solid management skills, extensive experience in the computer information systems development function, the ability to work effectively with client departments in addressing their information system needs, and coordinating activities of systems development project teams. A post-secondary degree and/or equivalent experience is desirable. Salary range: \$38,394 to \$57,594 per annum.

Applications, including a résumé, should be submitted by 19 August 1988 to: W.E. Affolder, Associate Director, University Computing Systems, 148 Students' Union Building, University of Alberta, Edmonton, Alberta T6G 2J7.

Research Associate, Rick Hansen Centre

Applications are invited for the following position:

Responsibilities:

- Research Associate in the Rick Hansen Centre;
- Coordinate the development of physiological research projects as they specifically apply to physically disabled individuals and high performance athletes;
- Coordinate the development and instruction of coaching certification programs for coaches working with elite wheelchair athletes;
- Provide coaching expertise for high performance elite paraplegic and quadriplegic wheelchair track athletes;
- Develop a sound rehabilitative research program for victims of recent spinal cord injuries.

Qualifications:

- Candidates must possess a minimum of a Master of Science degree in Exercise Physiology;
- Candidates must demonstrate evidence of experience (minimum of four years) and expertise essential to coaching international level wheelchair athletes;
- Candidates must demonstrate a strong background in exercise physiology research as it relates to physically disabled athletes.

Appointment: Full-time temporary position effective 1 December 1988.

Salary: \$25,000 to \$30,000 per annum.

Application closing date: 1 October 1988. Forward application and names of three (3) references to: Dr. Robert D. Steadward, Director, Rick Hansen Centre, Department of Physical Education and Sport Studies, University of Alberta Edmonton, Alberta T6G 2H9.

Administrative/ Professional Officer, Special Sessions, Faculty of Extension

Applications are invited for the position of Administrative Professional Officer in the Special Sessions Office, Faculty of Extension.

The APO reports to the Director of Special Sessions and assists in the planning, organization, and administration of the Spring Session, Summer Session and the Off-Campus Credit Program. The position involves extensive liaison with most academic and administrative units within the University as well as frequent contact with students, the public, and representatives of other educational organizations in central and northern Alberta.

The incumbent is also responsible for providing an efficient administrative support system through the selection, supervision, and evaluation of non-academic staff. Other responsibilities include budget control, Calendar production and promotion of Special Sessions programs.

Applicants must have a University degree and administrative experience in a university setting. (Relevant experience may be considered in lieu of a degree.) Excellent interpersonal skills and the ability to communicate effectively verbally and in writing are required. Experience with OAS, MTS and micro-computer systems would be an asset.

Salary will be commensurate with qualifications and experience—the current salary range is \$26,506 to \$39,754 per annum.

The anticipated date of appointment is 3 October 1988.

Applications, including a résumé and the names of three referees, should be sent to: Mr. K.L. Carswell, Director, Special Sessions, Faculty of Extension, 4-107 Education II, University of Alberta, Edmonton, Alberta T6G 2G5.

Support Staff

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. Due to publication lead time and the fact that positions are filled on an ongoing basis, these vacancies cannot be guaranteed beyond 29 July. For a more up-to-date listing, please consult the weekly *Employment Opportunities Bulletin* and/or the postings in PSSR.
